## A2 PERMIT HOLDER RENEWALS & OPTION TO CHANGE TO A2F PERMIT

### NEW OHIO FARM WINERY PERMIT A2F (FEE IS \$76.00)

All A2 permit holders should have filed their renewal applications by September 16, 2016, so that a late filing fee does not apply. Any permit holder of an expiring A2 (wine manufacturer) permit that wishes to receive the new A2F "Ohio Farm Winery Permit" for manufacturers of wine from grapes, fruit or other agricultural products grown on land devoted exclusively to agricultural use and processed for sale in accordance with the A2F permit provisions (See R.C. 4301.031(B)) may apply for an A2F permit.

#### **BY NOVEMBER 1st**

If the A2 permit holder has already filed a renewal application for the A2 permit but wants to apply for an A2F permit there is no permit fee if the Division receives the A2F application form (**See link to form** "[Apply to Manufacture Alcoholic Beverages In-State- DLC LIQ16-008](#)") prior to November 1, 2016, along with a current agricultural use valuation (CAUV) from the county auditor on the land where the grapes, fruit or other agricultural product is grown. The fee already submitted for the A2 will be applied to the A2F.

#### **AFTER NOVEMBER 1st**

Any A2 permit holder that prefers to convert their A2 permit to an A2F permit after November 1, 2016, is required to complete an A2F application (See link to form "[Apply to Manufacture Alcoholic Beverages In-State- DLC LIQ16-008](#)"), pay the additional \$76.00 fee for the A2F, request cancellation of the A2 permit and submit a current agricultural use valuation (CAUV) from the county auditor where the grapes, fruit or other agricultural product is grown.

For additional questions on the new A2F permit, please contact the Division of Liquor Control New Permits Section at 614-644-3155.
