

*****DRAFT - NOT FOR FILING*****

4101:9-2-07 Occupations involved in the manufacture of chemicals.

All occupations involved in the manufacture, distribution, or use of the following chemicals or chemical compounds: fertilizers, fungicides, insecticides, rodenticides, and herbicides are prohibited for minors under eighteen years of age.

Definitions:

- (A) "Fertilizers" are artificial substances manufactured to be applied to the soil to increase fertility of vegetation.
- (B) "Fungicides" are any poisonous substances that kill fungi or check the growth of spores.
- (C) "Insecticides" are poisonous substances sprayed or dusted upon the soil or vegetation to kill or prevent the propagation of insect pests.
- (D) "Rodenticides" are any poisonous substances that are used for killing rodents.
- (E) "Herbicides" are any chemical substances used to kill or check the growth of plants.
