Revolving Loan Scoring Criteria:

Based on the scoring system outlined below established by the State Fire Marshal, each applicant will accumulate points based on specific information contained in their loan application. Applicants with the highest scores that meet eligibility requirements will be awarded loans based upon the availability of funds. In the event of a score tie, the available funds will be awarded according to the following priorities:

1. Applicants with the lowest fire department operating budget.
2. Applicants with the largest protection area.
3. Applicants with the largest population.

The scoring system generated for this loan cycle is calculated based upon the following:

1. Applicants with larger protection area of resident population receive a higher number of points.
2. The total operating budget for the 2020 calendar year is included in determining points awarded. There is no minimum or maximum budget requirement however lower budgets receive higher points.
3. During the reporting period the higher number of fire incidents/calls/responses requiring a NFIRS report responded in primary fire protection area accrue higher points toward total score. This number must be consistent with submitted NFIRS reports.
