Corrective action may include revised test, additional test or graded materials.

Grading Chart:
OAC 4765-11-03 (B)(21)(a) and OAC 4765-7-02 (A)(21)(h)

• Test Score Percentage Calculation:
• The percentage score for each student’s test is determined by dividing the number of correctly answered test questions by the total number of test questions.

The following formula demonstrates this procedure:
Where: “A” (divided) is the number of correctly answered questions:
And: “B” (divisor) is the total number of test questions:
And: “C” (quotient) is the percentage of correctly answered test questions.

Then: “A” ÷ “B” = C

Examples:
A Student answered 79 (A) questions correctly on a test with 100 (B) possible questions.

A ÷ B = C
79 ÷ 100 = 0.79 or 79%

A student answered 17 (A) questions correctly on a 30 (B) question test.

A ÷ B = C
17 ÷ 30 = .566 or 56%

Grades are not rounded up. The grade % is based on the actual % of correct answers.

Refer to Appendix A for Firefighter grade determination procedure.
Refer to Appendix B for EMT grade determination procedure.
Refer to Appendix B for EMT Refresher grade determination procedure.
Refer to Appendix B for Advanced EMT grade determination procedure.
Refer to Appendix B for Advanced EMT Refresher grade determination procedure.
Retakes: Two test re-takes will be permitted for each test administered, allowing for a total of three (3) attempts to pass each test. Test re-takes must be taken prior to the next scheduled test following the failure of the respective test. Students shall not re-test on the same day. A maximum score of 70% will be allowed on a re-take test, for the purpose of determining the student’s overall grade point average. Retakes will be administered at the discretion of the Academy Training Coordinator and/or Training Supervisor.

Performance Skill Testing

The OFA uses multiple methods of ensuring competency of subject matter including cognitive or performance skill testing. Performance skill testing, measures the individual’s ability to perform specific tasks or applications against a given or known standard.

Grades: Performance skill tests are typically Pass or Fail unless otherwise specified. Testing for initial State Certification: Refer to the appropriate appendix.

Retakes: Two performance skill test re-takes will be permitted for each performance skill test administered, allowing for a total of three (3) attempts to pass each test (refer to the specific appendix for specific course policy). Students may retest for a second time in the same day at the discretion of the Academy Training Coordinator and/or Training Supervisor. Third attempts may not be less than one day after the second attempt. All final re-takes will be observed by the Superintendent, Deputy Superintendent or designee.

Failure to obtain a passing grade within the allotted (3) attempts will result in the student’s dismissal. An exit interview with the Academy Superintendent or Deputy Superintendent will be held prior to dismissal.

Curriculum Assistance

Remediation: Any student who fails any test, and who wishes additional assistance before taking the retake test, can request such assistance from the Training Coordinator and Training Supervisor. The Training Coordinator and the Training Supervisor will make provisions to provide the assistance requested. All remediation will be at the convenience of the Academy’s Training Coordinator and/or Training Supervisor.

ADA Compliance: Students with a documented learning disability, as that term is used in the American with Disabilities Act (ADA), may qualify for reasonable assistance under Ohio Department of Public Safety Policy Number FP-004 “Alternative Fire Testing for ADA Candidates.” Pursuant to the Department of Commerce ADA policy, qualified individuals with a disability may request a reasonable accommodation.

Addendum I – Anti-Harassment
ANTI-HARASSMENT
Policy Number 205.0

Purpose: To ensure employees can work without fear of a hostile or offensive work environment.

Revised Date: February 2005

Cross Reference: Title VII of the Civil Rights Act of 1964 and subsequent amendments
Ohio Revised Code 4112

I. Policy

It is the policy of the Department to maintain a work environment free from any discrimination and to prohibit harassment of applicants, customers, clients, employees, temporary employees, interns, contractors and consultants, including discriminatory sexual advances or harassment adversely affecting an individual’s terms and conditions of employment.

Accordingly, the Department is committed to addressing Equal Employment Opportunity (EEO) concerns and continually improving our EEO program. The Department has developed a plan to correct problem areas and to continually improve our EEO program. The EEO plan is updated annually and a copy can be obtained from the Human Resources Office upon request. Dissemination of the agency’s policy statement is made to all employees as well as recruitment sources. In addition, the EEO Section displays informational posters from the Ohio Civil Rights Commission and the Equal Employment Opportunity Division to publicize this commitment to equal employment opportunity.

It is the policy of the Department to fully comply with the State of Ohio’s EEO program and all applicable cities, state and federal laws, rules, regulations and guidelines as they relate to non-discrimination in employment. It is illegal to discriminate against or harass an applicant or employee due to his/her race, color, sex (including sexual harassment and pregnancy), national origin, ancestry, disability, religion, age (40 or over) or veteran’s status (i.e. Vietnam Era, Desert Storm/Shield). In addition, retaliation against an individual because they have raised a complaint of employment discrimination or participated in an investigation of such a complaint is also illegal. Harassment may consist of unwelcome conduct, either verbal or physical, which is based upon a person’s protected status. The Department will not tolerate harassing conduct that affects tangible job benefits, that unreasonably interferes with another’s work performance, or that creates an intimidating, hostile or offensive work environment, based upon an individual’s race, color, sex, national origin, ancestry, disability, religion, age or veteran’s status.

For purposes of the Department’s EEO policy, sexual harassment may include unwelcome sexual advances, requests for sexual favors and other physical, verbal or visual conduct based upon sex when:
1) Submission to the conduct is an explicit term or condition of employment;
2) Submission to or rejection of the conduct is used as the basis for an employment decision;
3) The conduct has the purpose or effect of unreasonably interfering with an individual’s work performance or creating an intimidating, hostile or offensive work environment.

II. Procedures

Any employee, temporary or intern who believes that he/she is a victim of harassment or discrimination based upon his/her race, color, sex, national origin, ancestry, disability, religion, age (40 or over) or veteran’s status, should report such incidents to the Department’s EEO Administrator, his/her manager or to the Chief of Human Resources. Every attempt will be made to resolve the situation in a timely manner. Resolution may include non-formal discussions between the parties, internal investigations and possible recommendations for additional training and/or disciplinary action, up to and including possible termination. The nature of the resolution will be determined based upon the individual circumstances of the situation and the results of the internal investigation.

All managers and supervisors shall respond to every complaint they receive or any possible violation of this policy and shall report the incident to the EEO Administrator within twenty four hours. Failure to do so may result in disciplinary action.

Once the EEO Administrator has received an allegation of an EEO violation, an informal inquiry will be conducted. If the informal inquiry substantiates a possible EEO violation, the person accused of engaging in improper activity will be notified that the issue has been brought to the attention of the Human Resources Office. Upon determination by the EEO Administrator that a formal investigation is warranted, further interviews will be conducted with any individual who is believed to have relevant information concerning the issues involved. Written statements detailing
the information provided will be prepared and provided to each witness for his/her review and signature. All employees are expected to fully comply with any EEO investigation and must provide a truthful statement upon request. Failure to do so will be considered a violation of the EEO policy. Once the evidence has been gathered the EEO Administrator will review the findings and prepare a report of summary. If the EEO Administrator determines that there has been a violation of the EEO policy or that further administrative action is necessary, appropriate recommendations will be made to the Chief of Human Resources. The complainant, the complainant’s supervisor, and the person accused of improper conduct will be notified of the conclusion of the investigation and will have the results communicated to them.

An employee has the right to appeal the Department findings to the Ohio Department of Administrative Services, Equal Employment Opportunity Division within fifteen (15) days.

III. Additional Information
An employee may elect to file his/her complaint with the State of Ohio, Department of Administrative Services Equal Employment Opportunity Division instead of utilizing the Department’s internal EEO process. A complainant has thirty (30) calendar days after the alleged discriminatory act in which to file with the Equal Employment Opportunity Division. Further information is available at 30 E. Broad St., Level 18, Columbus, Ohio 43266-0601. Telephone: (614) 466 – 5628. Addendum II – Personal Appearance
PERSONAL APPEARANCE

Policy Number: 509.0

Purpose: To give guidelines on what is considered professional attire for the workplace.

Revised Date: February 2005

Cross Reference:

I. Professional Image Required
All employees are required to maintain a “professional image” in attire and appearance at all times.

II. Professional Image Standards
To decide whether a professional image standard is met, employees shall consider the purpose for which a particular piece of clothing is designed. A failure to exercise good judgment in making decisions as to what is a professional image may result in discipline. There are two standards for what is considered a “professional image”.

1) Traditional Business Attire
Traditional business attire is that which is common and traditional in formal business settings. It is characterized by clothing that is designed to present a competent business image. This is not a very subjective standard. Employees are expected to be reasonably aware of what professional business people normally wear when attempting to dress in a formal business setting.

2) Business-Casual Attire
Business-Casual attire is neither traditional business attire nor casual attire. It is a standard somewhere between the two. Business-Casual attire is that which is designed to present a professional image while allowing for more relaxed style of clothing. (Remember, it’s business first and casual second.)

Regardless of the professional image standard applied, clothing should always be clean, in good repair, and well-fitting. Traditional standards of personal hygiene must be observed at all times.

III. Business – Casual Authorization
Employees must be in traditional business attire unless specifically authorized to be in business-casual attire by the Director, Superintendent or Office Chief.

IV. Uniforms
Employees who have been issued uniforms by the department must follow policies for wearing uniforms of the division or office in which the employee is assigned.

V. Casual Attire
In general, attire that is not designed to present a professional image or is more appropriate in a non-business setting than a business setting is prohibited. On occasions when traditional business and business-casual attire are not appropriate for the work being performed, employees may request to wear casual attire. At times when casual attire is approved, employees are still expected to wear clothing that is clean, in good repair, and well-fitting.

For the purpose of this policy the term “Casual attire” and “dressed-down” are synonymous.

VI. When in Doubt
When you are looking at your wardrobe deciding what to wear, and you’re not sure if it is too casual, here are a few pointers…

1) If you think it’s too casual….it probably is.

2) As a guideline, try not to dress more casually than your supervisor.

3) It’s not important what you think looks good. It’s important what image you are presenting to your customer.

4) Remember, the standard attire is traditional business attire.
